EDUCATION

2022 - 2026
BE - KNOWLEDGE INSTITUTE OF TECHNOLOGY
- CGPA : 7.981

2021 - 2022
BALA BHARATHI MATR HR SEC SCHOOL
- HSC Percentage 65.8

2021 - 2022
BALA BHARATHI MATR HR SEC SCHOOL
- SSLC Percentage 65.3

SKILLS

- Java
- JavaScript
- SpringBoot
- SQL
- C
- CSS
- HTML

LANGUAGES

- English
- Tamil

AREA OF INTEREST

- Full Stack Development

OBJECTIVE

Aspiring **Java Developer** with a strong foundation in **Data Structures** & **Algorithms** (DSA), **Java**, and **SQL**. Hands-on experience in **problem-solving**, **backend development**, and **database management**. Committed to continuously enhancing my skills to build efficient solutions and contribute to impactful real-world projects.

PROJECTS

JSW-OHC
- I developed a web-based medical record management system for JSW, ensuring secure data storage, retrieval, and processing. I worked on the frontend using React to deliver a smooth user experience and designed the MySQL database for efficient performance. The project focused on real-world usability with an emphasis on security and speed.

Web Chat Application
- I developed a real-time web chat application using React and Spring Boot with features like one-to-one messaging and file sharing. It includes user authentication, secure APIs, and a scalable backend for seamless communication and performance.

INTERNSHIPS

CECT
- A portal for KIOT students to apply for credit transfer using their NPTEL certification courses. It simplifies the process by allowing students to submit course details for evaluation, ensuring seamless academic recognition

Prodigy
- Prodigy (Web Development) Developed and launched a responsive landing page using HTML, CSS and JavaScript, ensuring it was fully optimized for desktop.

ACHIEVEMENTS

- Solved 100+ problems on LeetCode
- Earned 5 star successfully in Hacker Rank (Java)
- Earned 5 star successfully in Hacker Rank (C)
